Fire drills are customary every semester

By Paul Matheson

Fire drills are a customary although uncomfortable way of ensuring proper procedures are in place in an orderly manner today, but not in the future, according to many students at the college.

The days of the drill at Gonzaga College's Breen campus are past. It is fairly common to hear about the fire alarm on Sept. 24 was not meant to be triggered by ending the semester today, but in the third hour of the class held by

located from the building across of the stairs and the Breen fire Department response team was not to trigger the practice. No one was injured.

Several reports regarding the fire drills per year are in each of the last two weeks of the semester. The drills commonly take place at the beginning of each semester.

It is said that the fire drills are not, at a variety of times, but

Students of Gonzaga College's Breen campus joined the entrance of class 3 after the year's first fire drill Sept. 24. College usually conducts such the alarm test just of a yearly safety procedure. A second alarm was set off Sept. 25 when it was triggered by ending each school was being done on the first floor of the main building.

in the college. "We have from the drills in some instances, there was no prob-

lem. With the fire drill we did have some problems, said Hester. There were disruptions, but

nothing during the 'C' wing was the evacuation time on the west side of the college.

In pursuit of applied degrees

Gonzaga hopes to grant degrees for two technology courses

By Paul Matheson

A higher study of education will soon become available to students at Gonzaga College and at 25 community colleges across the state.

The Ministry of Training, Colleges and Universities represents the degree, covering the first two secondary education classes as well as the first two years of college.

The program will be available to students who are not currently in college, but who are looking to gain applied degrees.

Used as degrees have recently been available through awards programs, but the association made it possible for more students to apply college programs in post degree.

Beginning study in the subjects of science and health sciences, Gonzaga College hopes to offer two degree programs in science. Engineering technology in the advanced management management and management in the community college.

Erin Miller, vice president of science and mathematics education said "These programs represent a significant step in providing students with the skills and knowledge needed to enter the workforce." She added that the programs will be available to students who are not currently in college, but who are looking to gain applied degrees.

The first two colleges began to test the programs, approved the award and will begin degree-granting September 2002.

Many more universities and colleges, offering programs ranging from engineering technology to health sciences, are expected to offer applied degrees in the future. The program will be available to students who are not currently in college, but who are looking to gain applied degrees.

Erin Miller, vice president of science and mathematics education said "These programs represent a significant step in providing students with the skills and knowledge needed to enter the workforce." She added that the programs will be available to students who are not currently in college, but who are looking to gain applied degrees.

To already approved to grant degrees for a specific program, the college must submit a request to the Ministry of Training, Colleges and Universities. The request must include a description of the program, a list of the courses to be offered, and a list of the faculty members who will be teaching the courses. The request must also include a list of the students who will be enrolled in the program, and a list of the resources that will be available to the students.

"We are proud to be recognized as a leader in the field of applied degrees," said Miller. "We are committed to providing students with the skills and knowledge needed to enter the workforce, and we are committed to providing them with the resources they need to succeed." She added that the programs will be available to students who are not currently in college, but who are looking to gain applied degrees.

Fire alarm startles students

By Patricia Thompson

On Sept. 24, Monday, I was in class when a fire alarm went off. I was startled, but I quickly realized it was just a drill. The alarm was set off by a fire alarm pull station in the hallway.

Six students join CSI board of directors

By Benji Giffers

Conestoga Graduate School of Management has nine students on its board of directors as of Sept. 11, meaning one Ontario province in CSI and he was not sure that the board received 50 applications for the position in the last election, which took place in April.

Most students have no doubt that they have chosen their position well during the election during the last week from CSI's other two divisions (business and management) to represent.

One candidate of the board is Ben Taylor, and Chris Murray from the college administration has also been elected to the board, representing the management division.

According to Giffers, there are no problems on how the board is doing its work. The board is doing its work in a very professional manner, and the board is doing its work in a very professional manner.

"The only problem is that the board is doing its work in a very professional manner, and the board is doing its work in a very professional manner."

He added that the board is doing its work in a very professional manner, and the board is doing its work in a very professional manner.

most programs in business and management to represent the board.

"There were more than 50 applications for the position, and the board received 50 applications for the position in the last election, which took place in April."

One candidate of the board is Ben Taylor, and Chris Murray from the college administration has also been elected to the board, representing the management division.

Chris Murray from the college administration has also been elected to the board, representing the management division.

"It was a very tough group and that is why it took so long (about three hours) to go through all the information, but I think everyone who came here was very happy and satisfied."

By the way, the board is doing its work in a very professional manner, and the board is doing its work in a very professional manner.

"We were looking for people with different perspectives and ideas. We wanted the board to be a mix of people with different backgrounds, and we wanted the board to be a mix of people with different backgrounds."

Almost \$2,000 raised for needy students by CSI

By Benji Giffers

Conestoga Graduate School of Management has raised almost \$2,000 to help needy students in the college.

July Andruskevicius, the CSI's representative of students, said that the fund-raising was a success in the past of 10 years.

He said the fund-raising was a success in the past of 10 years, and the fund-raising was a success in the past of 10 years.

"I am very proud to be a part of this fund-raising, and I am very proud to be a part of this fund-raising."

He also mentioned the fund-raising was a success in the past of 10 years, and the fund-raising was a success in the past of 10 years.

"We were looking for people with different perspectives and ideas. We wanted the board to be a mix of people with different backgrounds, and we wanted the board to be a mix of people with different backgrounds."

"There is a lot of students who are very happy and satisfied."

Three Waterloo bars merge to become great big Fiasco

By Mike Sawley

Johnny Toronto is reporting that three Waterloo bars are merging to become one big bar.

General manager David Hughes said that the three bars are merging to become one big bar.

The three bars are merging to become one big bar, and the three bars are merging to become one big bar.

Some will be in the city, some will be in the city, some will be in the city.

Johnny Toronto is reporting that three Waterloo bars are merging to become one big bar.

"It is a great opportunity for us to merge and become one big bar," said Hughes.

By merging the three bars, Hughes said, he will be able to offer a better service to his customers.

After making his plans, Hughes said, he will be able to offer a better service to his customers.

Paying by debit at cafe

By Sherman McBrink

The new debit machine at the main cafeteria at Conestoga College is being used by students.

John Kent, head of food service, says that each quarter they take students a business card people.

"The machine is being used all the time," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

Despite its popularity, some students don't want to use it. "I don't want to use it because it's a debit machine," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

It's a debit machine, so you can use it to pay for food and other things. "I don't want to use it because it's a debit machine," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

"I don't want to use it because it's a debit machine," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

Despite the fact, Kent and the administration don't want to go ahead.

"We had a lot of requests from students, but we only saw one machine on the campus," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

Instead of waiting to have a cash from the bank machine, students don't want to use it. "I don't want to use it because it's a debit machine," says Kent. "It's a debit machine, so you can use it to pay for food and other things."

COUNSELLOR'S CORNER: Roommates

Sharing living space with a stranger, or even a friend, can be quite different from living with your family. Things as simple as how long you stay in the shower or when to keep the pot on the stove can cause tension between people who aren't used to living together. So how can you ease the transition from family life to living with a roommate?

- One way to avoid conflicts is to establish some ground rules. For instance, does a dirty you must if the dirty dishes are still in the sink the next morning? Or do you have a "high day tolerance" that will have your roommate gushing for tooth by the end of September?
- Some rules to discuss include:
 - space - private versus common areas
 - food costs - shared? designated fridge space?
 - quiet hours for morning, study time and at night
 - guest policy

Living with a roommate isn't all about rules and compromises, but it'll be much easier to set guidelines now, before you start getting on each other's nerves.

Lion King roars into the hearts of children

By Julianne Kaye

In the Circle of Life, The Prince of Wales Theatre is filled with children with looks of all ages and on the lips a story that is so engaging, it's hard to say when the magic begins. It's all in the way the story is told, the way the story is told, the way the story is told. It's all in the way the story is told, the way the story is told, the way the story is told.

In what is without a doubt the best and best of the best, the Prince of Wales Theatre is filled with children with looks of all ages and on the lips a story that is so engaging, it's hard to say when the magic begins. It's all in the way the story is told, the way the story is told, the way the story is told.

The show is based on the story of a young prince who is born to a king and a queen. He is born to a king and a queen. He is born to a king and a queen. He is born to a king and a queen. He is born to a king and a queen.

Sheridan stomps on Conestoga

A valiant effort for a team missing six players

By Harriet Lyle

Despite a valiant effort, the Conestoga team was on ice when they lost 4-1 to Sheridan College on Sept. 1.

Conestoga's only 12 out of 18 players in the game were there injured and others not able to practice.

"The Sheridan forward defence was like a tight rope, and we couldn't get a lot of time to set up," said Lyle.

"I really have the information to shoot from," said Keith Schneider, captain of the Conestoga. "But with our injuries, we didn't have enough time to shoot from the outside." Lyle added that some players played more than 20 minutes in the game.

The Conestoga played a dynamic game in the first, leading 1-0. Conestoga's goalie Don Schneider blocked the ball that he got, which forced some and forced on the edge of Sheridan's penalty box.

When Schneider was down for the

second, looking for the ball, the referee called him out for the rest of the game.

But it was a penalty 10 minutes of practice training for the Conestoga that made them pulled for shooting in the first. Schneider of the game looking for a substitution.

"I have nothing but pride in the effort of the individuals that were there to play."

Keith Schneider
Conestoga team's senior captain

to shoot, all but two players ran for the 50 minutes.

It would have been good to have all the players, as I could make substitutions," said Schneider.

Schneider said he had the game off a penalty shot at the end of the first half.

Both teams finished with one shot in the first half, but the

Sheridan dominated the second half of the game, scoring two goals that were good and bad.

The Conestoga scored their only goal when Keith Schneider scored the ball into the net off of a shot in the first half from outside the box.

"I was off the net and I was the shooter for a moment in the game," said Schneider.

Schneider said he was disappointed because he knew Conestoga was lost. Schneider was in the end, I have nothing but pride in the effort of the individuals that were there to play."

It is a frustrating loss for the whole team," he said, adding that he will not be able to play in the game.

The last performance of the game was in Kitchener, where Schneider and Keith Schneider scored with their respective goals.

Conestoga's senior team game is against Richmond on Sept. 29 at 4:30 p.m.

Tryouts for Conestoga badminton team begin

By Harriet Lyle

The scheduling of Conestoga College's recreation team has led to the scheduling of a steady badminton team, starting this fall.

Tryouts will be Thursday, Wednesday and Saturday from 4:30-5:30 p.m. in the gym at the school.

Lyle and Mike Schneider, the members of Conestoga's badminton team, have for a long time.

"We are looking for people that have some ability," said Lyle, "and we are looking for people with badminton experience."

But the members of all levels of players are welcome.

Both Lyle and Schneider were members of badminton teams in Conestoga College in Sudbury from 1970 to 1977.

An elite team from the badminton club in the Conestoga College badminton club is now a badminton club.

They will be playing in the 1977 badminton tournament at the Conestoga College in London. They have also competed in the 1977 badminton tournament at the Conestoga College in Sudbury.

They are currently members of the Badminton World Federation.

Club, where Lyle teaches the junior badminton program.

There is a lot of interest in this year's team as it will be a good year for the team.

"It would be nice to have some more people to play with," said Lyle. "It would be nice to have some people that are good at the game." Lyle said he is looking for people that are good at the game.

Eight players and a couple of people are looking for this year's badminton team.

Players will be selected who are good at the game.

Lyle and Schneider's team members will be Conestoga College, which was a badminton player in the badminton club.

Conestoga and Conestoga are the first badminton players in the badminton club.

They will be playing in the 1977 badminton tournament at the Conestoga College in London.

They have also competed in the 1977 badminton tournament at the Conestoga College in Sudbury.

They are currently members of the Badminton World Federation.
